POSTER GUIDELINES

Here are some guidelines and suggestions for the design of the posters.

The standard format should be A0 (84.1 x 118.9 cm).

The title, authors' names and affiliations are to be indicated on the top section of the poster.

For the title, use font size at least 90p.

For the author list, use font size at least 44p.

For section headings, such as introduction, results and conclusion, use font size around 36p.

For the main text, use font size around 28p.

Text size in figures should be a minimum of 18p.

Suggestions: It is highly recommended that the poster includes a picture of the poster presenter, to ease identification and further discussions. Be conscious of the amount of text in the poster; try to aim at about 600 words in the whole poster.

It is the presenting author's responsibility to print the posters.

There will be a symbolic award for the best poster.
